

The globally operating HIRSCH Servo Group with 50 years of experience in the EPS and EPP industry is both, a market leader in processing with headquarters in Glanegg/Carinthia and 29 other manufacturing facilities in Central-, East- and South-East Europe (Germany, France, Hungary, Poland, Romania, Czech Republic, Slovakia, Ukraine) as well as a supplier of technology for energy- and resource-efficient machinery for processing EPS and EPP into shaped-molded parts and insulation. As a stable employer, the HIRSCH Servo Group provides about 1,700 jobs in the two business segments – EPS-Processing and Technology –, thereof about 260 in Carinthia/Austria.

To strengthen our team at our headquarters in Glanegg/Carinthia, we are looking for an independent and committed

Technical Assistance (m/f/d)

Your tasks

- Technical planning and project responsibility for the expansion, development and optimisation of our production facilities
- Coordination of process documentation and further development in the production area
- Creation and testing of piping and media systems
- Handling of tenders and coordination of the assembly of plants including commissioning
- Preparation and checking of technical plant documentation
- Independent analysis of process faults and derivation of improvement measures
- Coordination and cooperation with internal departments and external interfaces
- Coordination of process documentation and further development in the production area
- Preparation of reports and presentation documents

Your profile

- Completed technical education (apprenticeship, technical college or HTL in the field of mechatronics, electrical engineering or mechanical engineering).
- Experience in project management is an advantage
- Willingness to travel and very good English skills are required for this position.
- Flexibility and ability to work in a team
- Good knowledge of process and quality management
- Strong communication skills with high motivation and social competence

Your perspectives

- An innovative and highly interesting field of activity in a promising industry with a long-term employment contract
- Targeted further training opportunities
- Independent and autonomous work in a team
- Supportive and motivated team
- Innovative culture of ideas
- Development and promotion opportunities in one of the most innovative and dynamic companies in the industry

The remuneration for the position is a minimum annual salary starting at EUR 42.000. Depending on qualifications and experience, an overpayment in line with the market is offered.
